"Repairs" to Chevrolet Performance 602s may continue to be performed by all RUSH Authorized Repair Centers (see complete list on the Engine page of the RUSH Sprint Car website (www.rushsprintcars.com))

- If you prefer to utilize a "new" Chevrolet Performance 602 engine, we urge you to request that the RUSH Authorized Repair Centers permitted to perform work on RUSH Sprint Car engines purchase these engines from Pace Performance.

This change has been made to assist in the continued growth and development of the RUSH Sprint Car division due to current industry situations beyond our control, and to continue to provide a "cost contained" Sprint Car package.
